From the foregoing analysis of Income and Expenditure it will be seen that the year's working left a balance in hand of £87 5s. 8d., of which £49 2s. 1d. represents the balance brought forward from 1925. The total expenditure for the year (£2,372 13s. 0d.) is some £112 more than for the previous year, the excess being attributable entirely to medical and establishment expenses, the cost of maintenance of patients by itself, excluding these expenses, being practically the same as last year. The total cost of each patient works out on the average at £2 14s. 3d. a week, being 2s. 4½d. more than for 1925.

While the total number of patients treated in the Hospital during the year was 20 less than in 1925 (273 against 293), owing to the fact that the average duration of each case was 1½ days longer (23.4 days against 21.9), the actual number of patient days in 1926 was only 14 less than in the year before, while patient and staff days combined were only 30 fewer. It will be recollected that the year 1925 was the peak year of the Hospital since its opening so far as regards numbers of patients.

During the past year out of a total of 273 patients who passed through the Hospital 96 were treated entirely free of charge. So far as the Committee are concerned, no charge would have been made in several additional cases; but in these the patients or their friends, or Friendly Societies, volunteered small contributions towards the cost of their maintenance—action on their part which the Committee greatly appreciated.

The receipts from private patients occupying the two single wards exceeded those of the previous year by upwards of £130. An appreciable profit over average full cost of maintenance is made on these patients, which goes in aid of the general expenses of the Hospital.

Notwithstanding the difficulties of last year, the fuel supply was at no time deficient, and the Subscribers are to be congratulated upon the fact that the necessary heating lighting and power were maintained at a cost of not more than £30 in excess of that of the previous year.

The cost, including repairs and replacements, of the Hospital Electric Plant, which in addition to lighting provides current for the X-ray work, amounted approximately to £72 10s. 0d. The total consumption of current for the year was approximately 1,254 units, giving a cost of just under 1s. 2d. a unit.

During the year the floors of the entrance hall and corridors leading to the wards and the theatre have been covered with rubber. This has served to deaden noise, as to which some complaints had been received. The cost of this work, £92 1s. 9d., was defrayed out of the Special Reserve Fund.

The total amount received in respect of annual subscriptions has been maintained at exactly the same figure as for 1925, which year showed an increase of about £20 over 1924. The Committee would be very glad if the numbers of the regular annual subscribers could be increased, and if subscribers would be good enough to make a point of paying their subscriptions as early as possible in the year.

During the year the Committee have had under consideration an application, made by the Great Western Railway branch of the Hospitals' Saving Association, that the Hospital would admit members of the Railway Company's local staff and their families at a fixed charge of 6s. a day, irrespective of the earnings of the individual.

this charge being defrayed by the Association, and covering any fees payable to the patient's Medical Attendant. With the general principles of the scheme adopted by the Association the Committee have every sympathy. In view, however, of the purely voluntary basis upon which the Hospital is at present run, and of the arrangements in force with the Medical Staff, whose services are given gratuitously in the case of all patients who are not in a position to pay a minimum of a guinea a week towards the cost of their maintenance, the adoption of the scheme appeared impracticable, and the Committee felt obliged to refuse the application.

The effort of the Mayor of Devizes and his Committee last year in aid of the funds of the Hospital resulted in the most generous contribution of £1,225 15s. 5d.—over £300 in excess of the amount received last year. The Committee record their warm thanks for this gift, and their great appreciation of the time and strenuous work expended by the Mayor and the members of his Committee in collecting such a sum. Of the amount received £325 15s. 5d. has been applied as part of the ordinary income of the year, and of the balance £500 has been added to the Permanent Endowment Fund, while £400 has been carried to the Special Reserve Fund, which is available for meeting, as occasion arises, the expenses of improving and extending the work of the Hospital. It is hoped that at no very distant date the Committee may, with the sanction of the Subscribers, be in a position to undertake a much needed improvement and extension.

Several parishes in the area have again made during the past year special efforts in aid of the Hospital funds, and the Committee have to express their gratitude to the various local committees for their services in collecting the respective amounts received as a result. Parishes which have in this way provided substantial contributions are Market Lavington and Easterton (£50), Potterne (£16 13s. 1d.), Chirton, Marden and District Fête Committee (£14), Rowde (£10 4s. 6d.), Urchfont (£9 13s.), All Cannings (£8 2s. 9d.), and Bromham (£8).

A very generous donation of £21 has been received from the Wilts Police Athletic Club, representing a portion of the takings on the occasion of the Club's sports held at Trowbridge last year. The Committee have to record their great appreciation of, and sincere thanks for, this gift.

The "Egg and Pound Day" held again this year on the initiation of the Matron resulted in the receipt of £9 3s. 6d. in cash, 2,000 eggs, 416 packets of groceries of various sorts, one sack of flour, and a quantity of fruit, potatoes, and other vegetables. To the various donors of articles, to the school-children who afforded considerable help in the collection of eggs, and to Mr. W. Gibbons, who again made gratuitously provision for the pickling of the eggs, the Committee offer their thanks.

The Committee again record their grateful appreciation of help given during the year:—

By the Clergy and Ministers in the area for Church and Chapel Collections.

By Miss Thynne for masseuse work.

By Mrs. Ferris for sewing and mending linen.

By those who have contributed flowers, fruit, vegetables, etc.

By all those who have kindly taken charge of collecting boxes.

To the Honorary Medical Staff, whose ungrudging and invaluable services have, as in the past, been at all times at the disposal of the Hospital, the Committee voice the gratitude of themselves and of the Subscribers, and also of the patients who have had the benefit of their skill and attention.

The Committee record their warm appreciation of the manner in which the Matron, Miss Rixon, continues to discharge her responsible and multifarious duties. They frequently receive from patients and others expressions of their gratitude for her services and kindness. The Committee have also to report with pleasure that all the other members of the staff have carried out their duties efficiently and satisfactorily.

Finally, the Committee again express their appreciation of the work of their Secretary, Mr. H. H. Baker, and of the keen and efficient manner in which he has at all times served the Hospital.

On behalf of the Committee,

JOSEPH T. JACKSON,

*Chairman.*
